- There are 2 types of feeding: feeding by a supervisor or independent feeding.
- For independent catering, the participant must first give a clearly visible hand signal, then get into the left-hand lane, enter the catering channel from the racecourse in a considerate and prudent manner and stop completely. The entry into the food channel will be indicated by signage. In case of a defect, a technical support with tools, spare material and stand pump will be available to the participant. However, the participant has to fix the problem on his/her own.
- In order to receive food from a support person, the participant must first give a clearly visible hand signal, then get into the right-hand lane and receive his/her food from the support person. In the event of a technical defect, the participant is allowed to install replacement wheels, but he/she must do this on his/her own. In the case of other technical defects, the participant must repair them without outside assistance.
- Feeding is only allowed in the designated Feeding / Technical Zone.

Timing & Safety on the Track

Timing & Transponder

All participants will receive a timekeeping transponder with their starting documents. The transponder must be attached in accordance with the regulations. Participation without a transponder is not possible.

The timing of the 3RIDES Gran Fondo is done individually and electronically. The timing will be done by means of transponder technology. The results will be compiled according to the UCI Gran Fondo World Series regulations with a combined gross and net time recording. The first 25% of the respective age group will be counted for the result of the race with their net time according to the transponder.

Conditions of Participation & Regulations

3RIDES Gran Fondo

We urgently and expressly ask you to refrain from potentially dangerous driving manoeuvres at the finish. There are always avoidable crashes due to lack of bike control, especially in the finish sprint. After the finish, it is urgently necessary to turn left and leave the racecourse via the turn-off to the athletes' area.

Drivers who are hopelessly behind in the race can continue on the route in compliance with the Road traffic regulations but will be taken out of the race by the stewards. The seat post number with transponder must then be removed.

Emergency number

In the event of a fall and a resulting race cancellation, only call the following emergency number: +49 176 78415897.

Closing time

The results of the 3RIDES Gran Fondo will be published directly after the finish on the jury car and at the bib pick-up. The results will also be available on the website of the timekeeping service provider. The participant can thus check the results and the qualified riders for the UCI Gran Fondo World Championships himself/herself. This website, which will also include the start list, will be live and accessible via a link from the 3RIDES homepage from Wednesday 08 May 2024.
